Unity RAW 10 (DMX + ILDA)

PRODUCT SPECIFICATION SHEET

The Unity RAW 10 is a 10-watt full-colour RGB diode-based ILDA and DMX-compatible laser projector.

It is designed for those who want an economically friendly laser show system that has the power to produce beautiful aerial beam effects and high-resolution laser graphics, logos and text.

This RAW laser projector is suitable for semi-professionals and hobbyists and can be used in large clubs and venues.

Unity RAW 10 (DMX + ILDA)
